A Remarkable Case.

A large proportion of the American people are to-day dying from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant existence of enjoyment and usefulness as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of Druggists and your friends, and try one bottle of Green's August Flower. Your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can buy a sample bottle for 10 cents to try. Three doses will relieve the worst case. Positively sold by all Druggists on the Western Continent. *

A Remarkable Result.

It makes no difference how many Physicians, or how much medicine you have tried, it is now an established fact that German Syrup is the only remedy which has given complete satisfaction in severe cases of Lung Disease. It is true there are yet thousands of persons who are predisposed to Throat and Lung Affections, Consumption, Hemorrhages, Asthma, Severe Colds settled on the Breast, Pneumonia, Whooping Cough, &c., who have no personal knowledge of Boschee's German Syrup. To such we would say that 50,000 dozen were sold last year without one complaint. Consumptives, try just one bottle. Regular size 75 cents. Sold by all Druggists in America. *

DR. JAMES,

BROUGHTON ST., OPPOSITE COUNCIL CHAMBERS

CAN BE CONSULTED DAILY.

Of nearly 50 years' extensive practice in England, America, and Australia. He extracts polypus and cancer without the use of the knife when taken in time. Dr. James is the discoverer of a medicine which cures all LOCAL RHEUMATIC PAINS AS SOON AS APPLIED. DR. JAMES is in possession of medicines that never failed to stop and cure DIPTHERIA, SMALLPOX, CROUP and all FEVERS in a few hours. N. B.—Mrs. James, midwife of long experience and successful practice in this city, is open to engagement.

YESTERDAY whilst walking round to see the various stores and the good things in them we noticed in particular at PARKER'S MARKET two hind quarters of Beef marked, "RAISED AND FED BY J. GREAVES, NICOLA VALLEY." We are sure that such Beef cannot be equalled in any part of the world. The size is not extraordinary, but the enormous amount of Fat and Flesh on them, with so little bone, is a thing to be astonished at. The quarters can be seen to-day by any one passing and they are worth any one's going that far to see them *

DENTISTRY.—Dr. Cool calls attention to the beautiful alluminium-lined vulcanit-plates for upper and lower sets. The advantage of this work is that it is very thin, much stronger and lighter than the common plate usually worn; also, being a better conductor of heat and cold, it does not produce the iritation, sometimes caused by rubber or non-conducting substances. I make these sets for $35, something never before done, and guarantee my patrons that after once wearing one of them they will wear no other. The treatment of diseased teeth and fine operating I make a specialty. Teeth built up with pure gold to their natural contour; artificial crowns adjusted to roots in the best manner. Work of every description done anywhere I engage to do at the most reasonable prices *

REMOVAL. — Mr. Jungerman, watch maker and jeweller, will remove to the new brick building on the corner of Government and Bastion streets on or about the 10th inst. Mr. Jungerman has added largely to his stock which now presents increased inducements for the patronage of his customers and the general public. *

AS YOU GO along Government street compare the different show windows and see if LANGE does not surpass them all in price and style *

ANOTHER WONDERFUL CURE

—EFFECTED BY—

California Elastic Truss!

CALIFORNIA ELASTIC TRUSS CO., W. J. Horne Proprietor—Dear Sir: I feel that I owe it to you and to humanity to write the fact that I have been *SUBSTANTIALLY CURED* of a bad case of rupture of thirty years' standing, by one of your incomparable Trusses, which I purchased from you three months ago. I cannot describe the suffering, both physically and mentally, that I have undergone during that period; and now I feel like a new being. I have worn all kinds of Trusses, both Steel and Elastic, and never received any permanent relief until I tried yours. Its simplicity of construction, and facility with which it can be adjusted, and the ease and perfect freedom to the motions of the body with which it can be worn without causing any irritation, are its chief merits, and it is a perfect supporter. I have not had any sign of a return of the rupture since the first day I put it on and feel that I am *PERFECTLY CURED*. It is invaluable, and the fact should be known to the world. You can refer anyone to me on the subject of its merits. I am truly yours, ALFRED J. BURKE.

DR. SPINNEY, well known as the founder of the Montreal (C. E.) Medical Institute, and late Proprietor of the SPINNEYVILLE INFIRMARY would most respectfully inform his patients and the afflicted generally, that he still continues to treat chronic and nervous diseases with unparalleled success.

LADIES AND GENTLEMEN,

Remember that procrastination is the thief of time so

COME AND BE HEALED!

It matters not what your troubles may be, come and let the Doctor examine your case. It will cost you nothing for consultation, so please call and satisfy yourselves whether the Doctor understands your case. If he can cure you he will tell you so; if not, he will tell you that, for he will not undertake a case unless he is confident of effecting a cure.

Parties at a distance wishing treatment, by sending $25 and a minute description of their troubles will receive in return a full course of treatment securely packed so as not to excite curiosity.

DR. SPINNEY will guarantee to forfeit Five Hundred Dollars for every case of any kind or character which he undertakes and fails to cure.

Daily Colonist.

SATURDAY MORNING, FEB. 15TH, 1879.

L. P. FISHER, 20 and 21 New Merchants' Exchange, is our authorised Agent in San Francisco.

SANDFORD FLEMING'S NEW METHOD OF RECKONING TIME.

Mr. SANDFORD FLEMING, Chief Engineer of the Canadian Pacific Railway, is the originator of a new method for calculating time. The great evil in these days of steamboat and rail travel is the absence of a uniform system throughout the world. On the continent of Europe the difference in the clocks is a great difficulty. There is, for instance, a difference of two hours between the clocks of Paris and Vienna. In Canada the railways will soon extend from Newfoundland to British Columbia, or across 75 degrees of longitude. In every town through which they pass the time will be different, and the difference between the clocks at the two extremes of Canada will be five hours. This state of affairs leads to difficulties, not merely as to the hour at which an occurrence takes place, but as to the day, month, and perhaps year of the occurrence; for while at one place on the earth's surface it is noon, at another it is midnight, at another sunset, so that there is a whole day's difference between a moment at one point and the same moment at another point. Another anomaly Mr. Fleming points out is that a traveller from San Francisco to Australia gains a day because the antipodean colonies were colonized from the East. In fact those who travel eastward lose a day, while those who journey westward gain a day. Mrs. Brassey, in her "Voyage of the Sunbeam," lost a day, and in her diary jumps from Wednesday, the 10th day of the month to Friday, the 12th—Thursday being dropped. If two travellers set out from a given place to go round the world, one going in an easterly directon and the other going to the west, a singular circumstance would occur on their arrival at the same time at the place from which they started. The local time might be Wednesday, January 1. But to the man who started to travel east the time would be Tuesday, January 2nd. Several other instances are given of the gain and loss of time, and it is pointed out that Edgar Allen Poe's "Three Sundays in One Week," is not so much an impossibility as people used to think. Mr. Fleming then, by means of diagrams, traces the progress of local time round the earth, and shows while it is Eriday at one point it is Thursday and Saturday at others, and so on with other days. To remedy the difficulties consequent upon the change of time at at various points, he proposes to divide the unit of time into twenty-four equal parts which should correspond with certain known meridians of longitude. A chronometer or timekeeper stationed at a certain part of the world should indicate the time at that point. It should also indicate the time at the various meridians. Watches for travellers, a specimen of which was shown, should also indicate standard time and the time at each meridian, which would be local time. By that means the nearest approach to uniform time, without a complete revolution in our horological system, would be arrived at.

GALWAY JUSTICE.

In 1798 the yeomen of Galway who were called out to aid the military in suppressing the rebellion, and caught an unfortunate Irishman who was suspected and the question to be decided was, whether he should be tried by a jury or not? The captain of the band was a gentleman and he said, "yes, of course, he will be tried by a jury." The men shouted, "All right, your honor, we'll hang him first and try him after." He was hanged, and the next day the warriors discovered they had murdered an innocent man. One would suppose this system of trial was played out and that it ended with the eighteenth century; but it is practised here in this Province and no one cries shame. In 1876 one WILLIAM FERNIE, a constable retired from the service, swore an affidavit in which he charged the Gold Commissioner at Kootenay with corrupt practises. The affidavit was forwarded to the Elliott Government and their astute leader discovered on the face of this document evidence sufficient to convince any sensible man that it was insignificant and malicious. FERNIE swore that he had known for years of the corrupt practises and the date of the affidavit showed how long he kept the secret to himself. Now the testimony of the dishonest witness who keeps such a secret so long must always be received with great caution. On such testimony the ELLIOTT Government very properly declined putting the country to the expense of sending a Supreme Court Judge to Kootenay. The winds are fickle and so are the people. They got tired of ELLIOTT and they elected WALKEM to be captain of the yeomen. One of the men in the squad he commands is BOOTH'S mortal enemy. This man stood up in the House and read a copy of FERNIE'S affidavit (see report in *Standard*, 3d March, 1878.) He was not as bold as the Galway yeoman; he sheltered himself behind FERNIE, saying, "this is the affidavit, gentlemen, I only ask you to do justice." And justice was done in Galway fashion. BOOTH was condemned unheard, dismissed from office, and FERNIE, the informer, appointed Government Agent and Constable at Kootenay. And now, in good old Galway style, a committee selected by ballot is going to try the man already condemned and punished. From the beginning to the end this appears to be a most disgraceful proceeding. Sheltered behind the privileges of the House a bitter political partisan is permitted to assail the character of an honest man. Without a trial, without any evidence, he is convicted and dismissed from the service by "a Responsible Government." Responsible, indeed! It is a mockery, a disgrace to the Britons who permit the practise of such injustice.

CUSTER'S DISASTER REPEATED.

The startling reverse to British arms in South Africa is a repetition of the CUSTER disaster amidst the Black Hills in 1876. Whilst the main body of troops under Lord CHELMSFORD were decoyed to a point 12 miles distant from the camp the wily savages drew the small force left to guard the supplies from their entrenchments and slaughtered them to a man, besides possessing themselves of supplies of food, guns and ammunition which will enable them to continue the struggle for a long time. Reinforcements are being hurried forward from England; and too little is yet known of the circumstances that led to the disaster to pronounce upon the competency of the commander of the expedition. It seems strange, however, that the Zulus should be found so well provided with arms and ammunition as to be able to hold a field successfully with 20,000 men against even 500 fully equipped British troops.

"One of Them" to the Deluge Foreman.

EDITOR COLONIST:—The foreman of the Deluge Company can hardly feel worse than any other fireman that his actions should bring upon him "such a severe stricture," and as he does not attempt to refute my assertions or give any reason for causing the delay complained of, by taking the water off the fire, he should acknowledge his mistake.

His own conduct entirely contradicts his assertion "that as far as he has seen firemen obey their officers and they their superiors," and "nothing but good feeling and friendly rivalry exist in the department." Does he remember his reply to the chief engineer when ordered to "take up?" or his curt answer to the foreman of Tiger Company refusing him the loan of a length of hose that was not in use to replace one that had burst? No, no, Mr. Foreman, yours is not the correct way to enhance good feeling or friendly rivalry. Turn over a new leaf. ONE OF THEM.

DELAYED DISPATCHES.

INDIA.

CALCUTTA, Feb. 11.—A report of the death of the Ameer of Afghanistan is untrue. It is the Ameer of Bokhara.

AFRICA.

CAPE COLONY, Feb. 10.—The men-of-war Active and Tenedos have been ashore. The Tenedos was seriously injured and obliged to go into the dock at Simon Bay.

EUROPE.

LONDON, Feb. 6.—A Vienna dispatch says: It is reported Germany, in consequence of Austria's consent to the recent treaty concerning North Schleswig, has undertaken not to interfere with an Austrian advance upon Salonica.

LIVERPOOL, Feb. 11.—An order of the privy council revoking after March 3d article 13 of the foreign animals order so far as it relates to the United States, was a great surprise. All cattle from the United States after March 3d, will have to be slaughtered in abattoirs now preparing on docks at Birkenhead and Liverpool, within ten days after landing.

CONSTANTINOPLE, Feb. 11.—The definitive treaty between Russia and Turkey declares peace and cordial relations to be re-established between Russia and Turkey, and provides that articles of the San Stefano treaty which were not modified by the treaty of Berlin shall remain in force. The mode of payment of the war indemnity and compensation to Russian residents of Turkey who suffered through the war is left for future agreement. All prosecutions for aiding the other side during the war are abandoned, and persons implicated in the Roumelian disturbances are pardoned. The protocol declares that the recognition of the treaty of Berlin in the present treaty changes neither its character nor range of power. As Servia, Montenegro and Roumania are independent, Russia leaves them free to come to an understanding for themselves with the Porte relative to their claims for war indemnities.

Gen. Todleben has telegraphed Prince Labanoff that he will begin evacuation of Adrianople in ten days and is making a requisition for all wagons for transportation purposes.

PARIS, Feb. 11.—Monsigneur Desprez, archbishop of Toulouse and Narbonne, has been created a cardinal.

DYING.

[FOR THE COLONIST.]

Death comes; I do not weep,
No tear is in mine eye.
I do not fear to sleep,
Why should I fear to die?

I have no faith in man,
The wisest wants more sense;
He's but a child who can
Display a vain pretense.

In God I trust because
I know that He is just;
In his unerring laws
I place my hope and trust

I go—I see a light
Approaching to me fast,
I thank the Lord to-night
My pilgrimage is past.

A vocal and instrumental entertainment will be given at Philharmonic Hall on Monday evening at 7½ o'clock, by a committee of ladies, under the patronage of the Hope of the Navy Lodge of Good Templars, for the benefit of the Amateur Society of Singers. Admittance 50 cents; children half price. *

THIRD PROVINCIAL ASSEMBLY.

Second Session.

FRIDAY, Feb. 14th, 1879.

Mr. Speaker took the chair at 2:05 p.m.

PETITIONS.

Mr. Abrams presented a petition from the officers of the Nanaimo Fire Department asking for the passing of an Act for relief.

The petition was referred to the committee on private bills.

REPORTS.

Mr. Evans presented the report of the select committee appointed to ascertain how and in what manner the payment of $750 as sustenance allowance to the Gold Commissioner at Cassiar was made. The report states that the money was paid by order in council dated as late as February 5, 1878, and that the amount was the same as his predecessor had received.

The report was ordered to be printed.

LAW STAMPS BILL.

Was read a third time and passed.

REGISTRY OFFICE.

Mr. McGillivray moved that, in the opinion of this House, it is expedient to establish a Registry Office at New Westminster, under the provisions of "Land Registry Ordinance, 1870," for the convenience of the inhabitants of the Mainland.

In moving this the hon. gentleman said his object was to make it more convenient for persons on the mainland to register lands, etc. He did not think it would entail any extra expense in that at present, the officer in Victoria is over-worked and must soon have assistance. This assistance might be obtained in this way, and he believed the fees would pay the extra expense.

Mr. E. Brown seconded it, and considering the increasing importance of New Westminster and the mainland, said that it was necessary to establish an office there. It would also relieve the office in Victoria of a large amount of work.

Hon. Mr. Walkem said the district was certainly one of the most important in the country. This resolution he considered was a little too binding. It would require an entire change in the registry system. He had endeavored to rectify this evil by passing a bill to appoint a judge and court on the mainland, in which case the registrar would have had to do this work; but the bill would be disallowed at Ottawa. He would ask the hon. gentleman to withdraw his resolution.

Mr. McGillivray said he could not withdraw his resolution.

Hon. Mr. Walkem then moved that the following words be added, "as circumstances necessitate," and the resolution as amended passed.

CARIBOO.

Mr. Evans wished to know whether any attempt had been made to fill Mr. Ball's position as Gold Commissioner at Cariboo?

Hon. Mr. Walkem said Mr. Ball himself had made arrangements with Mr. Saunders.

RAILWAY.

Adjourned debate on motion to telegraph for a reply to a petition addressed to Her Majesty on railway matters.

Hon. Mr. Walkem said this debate had been adjourned in order that members might be placed in possession of all papers relating to this matter. He said it appeared strange that as it was now nearly a month past since both Governments were telegraphed as to this petition that no answer had been received and he therefore thought the House should throw in its influence and ask for what they were entitled to, namely, a reply to their petition. He thought that under any circumstances one or other of the Governments should have answered the petition. He would ask that the telegram be signed by the Speaker.

Mr. Smithe said there was no disguising the fact that the House stood in a very enviable position with reference to this question. He was sure the Attorney-General must feel most acutely as the author of the original petition, and as the mover of that resolution, the silent rebuke he had received at the hands of the Colonial Office. The Opposition had warned the Government last session that the threat of separation could only bring down from Imperial statesmen upon the heads of its authors a severe censure, or that it would be treated with silent contempt. It was not to be expected when leading men of both parties at home and in the colonies were advocating closer union of the component parts of the Empire, that a threat of a Provincial Assembly tending in the direction of a disintegration would meet with any countenance or sympathy. It was well known that the Opposition were no parties to that petition, but as members of the House they were included in the slight which had been put upon the Assembly, and every member, whether on the Government or Opposition benches, must feel the humiliating position he had been placed in by the mistake made by the Government last session on the Railway Question. He did not wish to shelter himself behind the plea that he protested against the petition, and that therefore he was not included in the rebuke the Queen's ministers had thought fit to inflict upon the Speaker and the House. He recognized that as a body the legislature of the Province had been snubbed and it only remained to be determined whether they should take the snubbing meekly and say no more about it or pass this resolution and thereby compel the Imperial Government to do what they were evidently unwilling or reluctant to do, viz, to drop the silent censure and substitute one of a nature even more calculated to wound members' sensibilities. He would ask the Attorney-General to consider whether it would not be wiser to withdraw the resolution; at the same time if not withdrawn the Opposition would not weaken his hands by dividing the House upon the question. It would be better if it did pass, that it should do so with a semblance of unanimity.

Mr. Williams made a personal attack upon the leader of the Opposition which made members of his own party hang their heads for shame; and he sat down without once referring to the question before the House.

Hon. Mr. Beaven said it was strange how hon. members changed their opinions for on looking through the sessional papers it would be seen that the Elliott Government, of which Mr. Smithe was a member, had in 1877 telegraphed Earl Carnarvon in a like manner because they had received no reply to a dispatch. He hoped that this resolution would pass the House unanimously, for it would no doubt have greater effect. He thought it would be only right for the House to draw the attention of the Imperial authorities to the fact that no answer had been received to their dispatch.

Mr. Smithe begged to correct the hon. Finance Minister with reference to a former dispatch to Earl Carnarvon. The case was entirely different. Lord Carnarvon did duly acknowledge the receipt of that dispatch and had even replied to it through the Dominion Government. The Elliott Government expected a direct answer and they telegraphed accordingly, when Carnarvon explained that it was unusual to communicate directly with Provincial Governments, but said he would make an exception to the rule on that occasion.

Mr. Ash said he understood that Mr. Speaker should telegraph to the Queen. This, he thought, would be a novel way of the Province communicating with the Imperial Government; but he could not quite see what kind of answer the Government wished for. There was nothing in the dispatch requiring a direct answer. He could not see what right the House had to expect an answer, except from the Dominion Government. He believed the answer would come in its proper way, through the Dominion Government, but in a form little dreamt of by any member of the House.

Hon. Mr. Humphreys said it was to be regretted that members should offer any opposition to a resolution which they cannot better. They had never attempted to indicate to the House and country a better form of procedure. Their opposition was a factious one. He thought they should act like men and demand their rights. The hon. gentleman then proceeded to personally attack the leader of the Opposition. When he (Mr. H.) was in the Opposition he had never once offered any opposition on the railway question. At this time it was evident something should be done and the Government should at once commence work.

Mr. Vernon said the Government had acknowledged their weakness and now called on the House to assist them. In his opinion the House should not have been called till the Government were in a position to lay the railway question fully before the country; but he supposed the Government wished to get the House well over before the first of May. The Government had attempted to threaten the Dominion Government by the passage of the petition eight months before it could come into effect and he could not see that any answer was required until the first of May. The proper course, in his opinion, would have been to have followed Lord Carnarvon's advice and waited patiently until the Dominion Parliament was called together and seen what action it would take with the tenders for construction of railway when they were received. If no action was taken it was not impossible that this House would have been unanimous with respect to separation, whereas now the petition forwarded was not sent by any means with the consent of the whole Province and would prove of no use. He believed that the Dominion Government intended to prosecute the work, and thought the Local Government had called the House together one month too soon.

Mr. Mara said that he had opposed the petition because he thought the House were making a threat which they had no means of carrying out. It was a false and and fatal step of the Government, and he could not allow this resolution to pass with a silent vote. Business as well as diplomatic correspondence required an acknowledgement, and he felt that as the Imperial Government had not acknowledged the receipt that they did not see the occasion for it and therefore the resolution is useless. Again, there has been a change of Government in Canada. This matter would be referred to them, and now when we must know in a few days what they intend doing we attempt to pass this resolution. The best plan, in his opinion, would be to pass a temperately worded address asking for railway construction. If such were brought in there would be no opposition to it and there would be more likelihood of doing good at Ottawa in that way than in sending a telegram to the Imperial Government asking them to answer our threat to separate. Every step in that direction he considered would only make our position weaker. We should attempt to strengthen our ground by being temperate and reasonable and not make threats which will only be resented.

Hon Mr. Walkem said these reflections on the Government amounted to nothing. There is nothing undignified in the petition; it is well written and respectful; there is nothing in it that can be shown to be in any way bordering on a tyrannical spirit. We have stated plainly to the Home Government that Canada has broken her contract and must be compelled to keep it. Any evidence of disunion in this House will be used against the Province, therefore we should be exceedingly careful in what steps we take. We have made a solemn contract with the Dominion Government and we are taking the proper steps in this matter. The form of the petition is correct if the petition itself is correct. As the Dominion Parliament is now sitting this is the time to forward the petition.

The question was then put and carried.

Hon. Mr. Humphreys, by order of His Excellency, laid before the House correspondence and papers referring to Kootenay.

LINE FENCES AND WATER COURSES BILL.

Mr. McIlmoyl moved the second reading and said it consisted in a very trifling alteration of a most useful Act; an Act which had done more to settle disputes of long standing in his district, and settle them well and satisfactorily than any other Act that had been passed. He thought the fence viewers were underpaid and the only amendment in his bill proposed was to strike out the word "two" and insert "four."

Mr. Smithe said it afforded him much gratification to hear from his friend from Saanich that the line fence bill had proved so useful to that district. He (Mr. S.) was the author of that measure and felt inclined to apppopriate to himself some credit therefor.

Hon. Mr. Humphreys laughed.

Mr. Smithe said the hon. Provincial Secretary seemed to think the measure one of trifling importance, but he (Mr. S.) could assure him that he had brought in the bill as much as anything on account of representations of existing evils made to him by his (Mr. H's) constituents. They had not apparently thought it worth while to acquaint their own member (Mr. H.) with their wants, and he had not been sufficiently observant to discover for himself the requirements of his district, or if he had he was careless of its interests, or if not careless he had lacked the ability to frame the measure to meet the requirements of the case. He (Mr. S.) acquisieced in the proposal to pay $4 a day to viewers instead of $2.

The Bill was then committed, and afterwards read a third time and passed.

Mr. Saul moved the second reading of the fences ordinance bill. He thought the country was now prepared for the proposed change in the law. As the law now stands it is a great hardship as some people put in crops in lands not fenced and then looked for damages. This he though unfair and would move the second reading.

On the motion of Mr. Mara the second reading was adjourned until Monday.

Mr. Vernon wished to have copies of the Statutes and called the attention of the Speaker to the fact that he could not find them in the library.

ARBITRATION BILL.

Hon. Mr. Walkem—It is a copy of the Ontario Bill. It provides for the appointment of arbitrators who may be barristers or others, and their fees are fixed by this bill. It is intended for the protection of all parties who wish to settle their disputes out of court and to reduce the cost as much as possible. He moved the second reading, McGillivray in the chair.

Clause 1.—Passed.

Clause 2.—

Mr. Smithe called attention to unnecessary distinction made between professional and non-professional men. He thought all should be placed on the same footing, for many business men would make as good arbitrators as professional men, such as land surveyors, and ought to be as well paid on the other hand. Making lawyer's pay, as arbitrators, double that of ordinary men would simply have the effect of preventing legal gentlemen being employed as arbitrators on account of the extra cost, when otherwise they might be deemed preferable. He thought the clause and the schedules should be altered. After some discussion the clause was amended in accordance with the suggestion.

Clause three was struck out and the rest of the clauses passed as they stood.

Schedule A was amended so as to read as follows: For every meeting where the cause is not proceeded with, but an enlargement or postponement is made at the request of either party, not less than $2, nor more than $4; for every day's sitting, to consist of not less than six hours, not less than $5, nor more than $10; for every sitting not extending to six hours (fractional parts of hours being excluded) where the arbitration is actually proceeded with, for each hour occupied in such proceedings, at the rate of not less than $1, nor more than $1.50.

Schedule B was struck out and the bill was reported complete with amendments.

The House then adjourned until 2 o'clock on Monday.

QUESTION.

Mr. Harris, on Monday next — To ask the Chief Commissioner of Lands and Works what action the Government intend to take in regard to a portion of land in New Westminster District known as Derby townsite, upon which a number of persons have located and are paying taxes regularly to Government agents and receiving receipts for the same without being able to obtain a title to their claims.

NOTICES.

Mr. Vernon, on Monday next—To move for a return of all correspondence between the Imperial or Dominion Governments and the Government of the Province from January 1st, 1878, to date, respecting the Esquimalt graving dock.

Mr. Vernon, on Monday next—To move That in the opinion of this House it is desirable that all correspondence between the local and Dominion Governments respecting the Acts passed by this Legislature last session should be bound and published with the sessional papers.

Mr. Vernon, on Monday next—To move for a return showing the number of patients admitted into the hospitals of Victoria, New Westminster, Nanaimo and Cariboo, respectively, from 1st January, 1878, to 1st January, 1879, together with all other particulars in connection with each patient as entered in the record books or journal of each hospital, such return to be bound and published with the sessional papers.

The Public Schools.

Mr. McKenzie, Superintendent of Education, has presented his annual report to the House. The school districts number 45 and contain 51 common schools and one high school. Enrolled pupils, 2,198; average daily attendance, 1,395.5. The whole cost of education has been $48,-411.14—a sum that is $3,571 in excess of the vote. It will now be in order for some member for Cariboo to rise in his place and move that the present Finance Minister be held responsible for the over-expenditure! The Superintendent recommends the levying in each district such an assessment as would be sufficient, in conjunction with a grant from the general revenue, to defray the whole expenses of the school. The Superintendent assumes, "as a *matter of universal consent*, that primary education should be free," and he leaves "the question of higher education until the improved character of the schools and of the country permits it being taken into consideration." What does the Superintendent mean—to abolish the High School entirely or destroy its "free" character? There is a design wrapped up in the quoted clause that is not clear, and its want of lucidity is sufficent to excite the suspicion of the advocates of free schools. There are 58 teachers employed in the department, of whom six have been educated in the Province. The Superintendent regret that the educational authorities have not hitherto done justice to these homemade teachers and complains of the paucity of the salary paid them—$20 per month. The average salary is $60 per month. Accompanying the report are some very useful statistics of the condition of the schools. A proposition is made for the readjustment of the salaries of teachers, and in making the readjustment he thinks it would "be advisable to make some change in the schedule of certificates. In the years previous to 1877-78, the certificates of female teachers were granted upon examination papers requiring much lower attainments than those required for the same grade of certificate for a male teacher, so that a certificate of the highest grade for a female teacher in those years was really only equal to a much lower grade of male teachers' certificates. The impression is also abroad among teachers that certificates have not been altogether impartially given and upon the merits of papers submitted by candidates, and I can, at least so far as this year, 1877-78, is concerned, certify to the correctness of this impression. I propose to superadd to the present six grades of certificates a higher grade, to be called 'Life Certificate' (or some similar name) of one or two grades, as may be advisable. No certificates are at present granted for life, and the demand for such certificates (*Vide* proceedings of Teachers' convention, 1876-77) would thus be met." We shall take occasion to return to this report. Without wishing to appear hypercritical we must say that some suggestions are made of which the public will not approve.

Customs Blanks.

Customs Blanks for Duty, Warehouse, ex-Warehouse, etc., in full supply at *The Colonist* office, adjoining Postoffice. *

BRUTALITY TOWARDS CHINESE.—Two cases of excessive brutality toward Chinamen have come to our notice within the past few days. The affairs began with snowballing, and when the Johns resisted they were knocked down and kicked by their assailants. One of these disgraceful scenes occurred near the Pacific Mail Steamship office, on Wharf street, and the treatment of the poor man is said to have been barbarous in the extreme. The police are said to have been fully informed of the circumstances of both outrages, but no arrests have been made.

REAL ESTATE SALES.—The old Bull's Head property, Yates street, $1,800; 100 acres of land on Esquimalt road, $2,500; lot on northeast corner Fort and Broad streets, $4,500; 150 acres timber land near Emory's Bar, Fraser River, $500, are among the real estate transactions of the past few days. The local advocates of both routes appear very confident, and when men show their sincerity by backing their opinions with money, let us hope neither will suffer disappointment.

THE BALLOT IN THE HOUSE.—A committee of five selected by ballot in the House is a committee chosen by the Government. They can always elect three of the five. In Booth's case the committee has been selected by the Government. Wilson and Williams, in the House, declared they did not believe an enquiry necessary, and Evans has in public declared himself hostile to Booth.

THE "WASP," a San Francisco humorous publication, has a cartoon of Brother Jonathan barring his door against the entrance of the Chinese to his domains, while the slippery Johns are discovered crawling through a hole labeled "British Columbia," and carrying carpet sacks labeled "*via* Victoria" are entering the United States more freely than before the new law was passed.

STILL HARPING ON THE FISHERY AWARD.—The New York *Times* says that at the recent executive session of the Senate it was stated in plain terms that the Fishery award had been secured by tampering with the Belgian arbitrator, and that the instalment of five millions was only the first of sums which England would demand.

THE THAW continues and walking is exceedingly unpleasant. Sleighing through the slushy streets is almost impossible, and, taken altogether, the late great snowstorm was a delusion and a snare. It promised all sorts of sport, but has ended in causing people some expense and a good deal of discomfort.

THE steamer Maude left at 7 a.m. yesterday, for Nanaimo with the mails and following passengers: Miss Stirtan, Mrs. Le Bolister, Mrs. Steuart, Col. Houghton, Rev. Mr. Murray, and Messrs. Northcote, P. Bard, Leiser and several others.

THE steamer Olympia left for New Westminster at 9 a.m. with the mails and following passengers: Mrs. Deacon and family, Thomas Oliver wife and daughter, A. C. Ackerman and several others.

PROFITABLE DIGGING. — Some $45 in silver coin have been recovered from the ruins of the late fire on Langley street. Search for a $1000 diamond ring was continued yesterday.

CONVALESCENT.—We were pleased to see His Worship Mayor Turner out again yesterday after his long illness.

Liens.

A Bill introduced by Mr. Drummond to establish liens in favour of mechanics and others is a good one. The third clause says, "unless there is an express agreement to the contrary, every mechanic, machinist, builder, miner, laborer, contractor or other person doing work upon or furnishing material for any building or mine shall have a lien or charge for the price of such work or materials upon such building and the lands occupied thereby, limited in amount to such trust as is justly due to the person entitled to such lien. A statement of such claim is in a form appended. The claim may be filed before or during the progress of the work or within twenty days of its completion with the Government Agent in the district, or in the absence of such person then in the office of the Registrar-General of Titles." Another clause says: Every lien shall cease to exist in thirty days after the completion of the work, unless in the meantime proceedings shall have been instituted to realize the claim under the provisions of this Act." The other clauses of the bill have reference to detail. The Bill provides a very sure security for mechanics, laborers and merchants, and to its provisions no honest contractor will object. It has our hearty approval.

County Court.

[Before Hon. A. F. Pemberton.]

FRIDAY, Feb. 14.

Lewis Guider *vs.* C. Bloomfield—A suit brought to recover $3.50 alleged to be due for work due. Judgment in favor of the plaintiff.

Mitchell *vs.* Reynolds—An action to recover $42.50 alleged to be due as wages. Judgment in favor of the plaintiff, each party to pay his own costs.

Municipal Police Court.

[Before H. C. Courtney, Esq., P. M.]

FRIDAY, Feb. 14.

George Hughes, on remand, charged with supplying intoxicating liquor to Indians, was sentenced to six months' imprisonment with hard labor, and to pay a fine of $100 or six months' additional imprisonment with hard labor.

DUTY.—Last week the Custom House took in $30,000 for duty on goods. This was in anticipation of the proposed increased tariff.

PROSERPINE.—Assessment No. 3, Proserpine, is 1½ cents per share. The mistake occurred through the telegram being misunderstood.

Canadian Mail.

[Per Steamship City of Chester.]

OTTAWA, Jan. 30.—The whole of the tenders for the construction of the connecting links of the Thunder Bay branch of the Canada Pacific Railway have been received, and to-day at noon the time for their reception terminated. The excitement amongst the contractors in the city has been most intense all day. Many have been comparing figures, and speculation is rife as to the fortunate tenderer or tenderers. The majority of the tenders received represent large companies.

OTTAWA, Jan. 31.—No decision has been made public in regard to the Canada Pacific Railway contract. Twenty-seven tenders were received, and most of the tenders represented large firms. The decision is expected to be made public to-morrow morning. The general impression prevails that the successful firm will be that of Messrs. J. Ginty, Purcell & Ryan, who it is said, have, as a fourth partner in the tender, Mr. Moberly, of Winnipeg. Another rumor says that a firm of which Jno. Hendrie, Hamilton, is the principal, will be the fortunate tenderer. These rumors are pure speculations based on a comparison of tenders, and no reliance can be placed on them, although the first is generally favoured as being correct.

OTTAWA, Jan. 30.—The failure of Garland, Mutchmore & Co., an old-established dry-goods firm of this city, is announced. One of the firm states that its absolute losses for the past two years were $100,000.

OTTAWA, Jan. 31.—The failure of Garland, Mutchmore & Co. has forced McKinnon Bros., and Wilson & Co., of Spark street, to make assignments. Their liabilities are not known, but it is thought they will be somewhere in the vicinity of $50,000. Garland & Mutchmore's are now estimated at between $250,000 and $300,000. Their discounts in the banks amount to $180,-000 and their English liabilities to $80,000.

It is stated on very reliable authority that the Government have decided to call Dr. Grant, of Ottawa, to the Senate.

Bishop Bethune, of Toronto, died on the 3d.

MONTREAL, Jan 3.—The Manager of the Merchants' Bank here states that the amount advanced on forged warehouse receipts at Quebec does not exceed ten thousand dollars. The latest information received is to the effect that a merchant named Demers, of the firm of Demers & Dion, Quebec, has been arrested for the forgery.

Strenuous efforts have been again made all day to conceal the particulars of the frauds on the Merchants' Bank. The prisoner arrested on the charge of forgery, is Mr. Demers, of the firm of Demers & Dion, in this city, and the estate of the firm was to-day attached in insolvency by the Merchants' Bank, and placed in the hands of Mr. Owen Murphy, assignee. No idea can be had of the exact losses of the Bank, but other developments are expected.

MONTREAL, Jan. 31.—At a meeting of leading merchants to-day, a resolution was passed in favor of the repeal of the Insolvent Act, and a committee was appointed to obtain signatures to a petition to this effect.

QUEBEC, Jan. 30.—Upon presentation of a certain paper for payment to Mr. Charles Samson, the signature, purporting to be his, was found to be a forgery. Mr. Shaw, the bank's accountant, has visited the city, and criminal information has been laid against a merchant of the city, who has been arrested.

It is generally stated that Mr. Brydges has been dismissed from the position of Chief Superintendent of the Government railways.

MONTREAL, Feb. 1.—The Collector of Inland Revenue for the Division of Montreal, Dunbar Browne, was to-day arrested on a charge of having on the 31st ult., received the sum of $53 28 for and on account of Her Majesty's Customs, which sum he is alleged to have fraudulently embezzled. The total amount of defalcations is said will foot up $10,000. The complaint against the accused is made by Mr. Raphael Bellemere, Inspector of Inland Revenue.

OTTAWA, Feb. 1.—It is with regret it is announced that in addition to Mr. Dunbar Browne, of Montreal, two other collectors of Inland Revenue are in like circumstances. Both are in Nova Scotia. One has been suspended and will be dismissed. The other has found good security for his defalcation, but will not likely be retained in the public service.

OTTAWA, Jan. 30.—It is believed that the Government, while asking the House of Commons to provide means for sending a Commission to the Sydney Exhibition, will also ask for votes for the Melbourne (Australia) and Berlin (Germany) Exhibitions, both of which are to be held next year. The latter opens in April, and of course the Government will have to take some action in the matter this session of Parliament.

MONTREAL, Jan. 23.—Mayor Beaudry has decided to run for a third time. It is doubtful if any candidate will oppose him.

Over 2,600,000 Now in Use.

The genuine Singer Sewing Machines can now be purchased on easy terms by monthly instalments, and cost but a trifle more than those of the most inferior and mushroom character. Our sales in 1877 alone amounted to 282,812, being a majority over all others. The records for 1878, when published, will show a yet greater increase. Regarding the merits of these machines the above undeniable facts speak for themselves. The machines can only be had through our office, the Singer Manufacturing Co.—J. H. MULLAN, Representative.—Office at Fawcett & Co.'s, Government street, Victoria, B. C. *

Come ye citizens and strangers,
Miners, sailors and Western rangers,
Listen to the truthful story,
Of Frank Campbell of Victoria.
He in truthful words will tell you
Just the goods he has to sell you.
Mind ye now he isn't joking,
If you are fond of chewing and smoking,
Or if you are given to snuffling,
What he keeps does not need puffing.
He has brands will suit you really,
Tobacco users prize them dearly;
From all parts of the "Old Dominion"
He has stock, and his opinion
Is that none can suit you better
They will please you to the letter.
His Cigars, just from 'Havana,'
Smoke in the most lovely manner;
Meerschaum pipes of style and fashion
Just to suit each taste and passion;
And it is in Canada stated,
His Tobaccos are celebrated;
Green Seal, Straight Cut, all go,
Big Lick, Big Cut, Wind Sap, also
All the Fine Cut Brands for chewing
That your teeth will never ruin;
Pipes to suit the inveterate smoker,
Cards for playing sinch or poker,
Pipes of briar and stems of cherry
More than any man can carry;
It would take a week to tell you
All the things he has to sell you.
While in town you may be stopping
At the "Adelphi Corner" drop in;
Campbell you'll find at that location
Ready to give you information,
Or to see you well provided,
With what is by all decided,
The smoker's and the chewer's glory,
The best and cheapest in Victoria.

F. CAMPBELL.

PATENTS

OBTAINED FOR MEchanical devices, medical, or other compounds, ornamental designs, trade marks and labels. Caveats, Assignments, Interferences, Infringements, and all matters relating to Patents promptly attended to.

INVENTIONS

THAT HAVE been rejected by the Patent Office may still, in most cases, be secured by us. Being opposite the Patent Office, we are able to make closer examinations, and secure Patents more promptly and with broader and better claims than those who are remote from Washington.

INVENTORS

SEND US A model or rough sketch and description of your device; we will make an examination, free of charge, and advise you as to its patentability. All correspondence strictly confidential. Prices as low as those of any reliable agency.

We refer to Officials in the Patent office, and to inventors in every State in the Union.

DR. J. COLLIS BROWNE'S
(Ex Army Medical Staff.)
CHLORODYNE
IS THE ORGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See *Times*, July, 12, 1864.

The Public, therefore, are cautioned against using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousand of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—diphtheria, fever, croup, ague.

CHLORODYNE acts like a charm in diarrhœa, and is the only specific in cholera and dysentery.

CHLORODYNE effectually cuts short all attacks of epilepsy, hysteria, palpitations and spasms.

CHLORODYNE is the only palliative in neuralgia, rheumatism, gout, cancer, toothache, meningitis, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was CHLORODYNE. *See Lancet*, Dec. 31, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay.—"CHLORODYNE is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports [December, 1865] that in nearly every case of Cholera in which Dr. J. COLLIS BROWNE'S CHLORODYNE was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

See leading article, *Pharmaceutical Journal*, Aug. 1, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne; that it is always righ to use his preparation when Chlorodyne is ordered.

CAUTION.—None genuine without the words "Dr. J. COLLIS BROWNE" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Sole Manufacturer, J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury, London.

Sold in bottles at 1s. 1½d., 2s. 9., 4s 6d. and 11s.
